

The Hitchhiker's Guide to Online Anonymity

Welcome.

IMPORTANT RECOMMENDATION FOR UKRAINIANS.

This is a maintained guide with the aim of providing an introduction to various online tracking techniques, online ID verification techniques, and detailed guidance to creating and maintaining (truly) anonymous online identities. **It is written with hope for activists, journalists, scientists, lawyers, whistle-blowers, and good people being oppressed, censored, harassed anywhere!**

This guide is an open-source non-profit initiative, licensed under **Creative Commons Attribution-NonCommercial 4.0 International** (cc-by-nc-4.0 [Archive.org]) and is **not sponsored/endorsed by any commercial/governmental entity**. This means that you are free to use my guide for pretty much any purpose **excluding commercially** as long as you do attribute it.

If you'd like to make a donation to help this project, you can do so from here where you'll also find the project goals. All the donations will be strictly used within the context of this project. All donations and spendings are logged on the donations page.
